COPPERWARE COMPANY HEADQUARTERS

Modern offices and plant facilities of John Charles Copperware company, located at 1513 Plaza del Amo, represents one of the finest industrial additions to the community. Plans are being made for expansion to more than three times present size.

World-Famed Copperware Company Locates Here

The beautiful new factory that recently opened at 1513 Plaza del Amo, heralds the advent in Torrance of a business that is world famous—the John Charles Copperware co., recognized as one of the few top firms in the United States engaged in making beautiful, high-quality copperware.

While John Charles Copperware is sold in many stores, the public is probably most familiar with it because of the lovely John Charles premiums that have been made available through the purchase of various products.

Among the large companies who have taken advantage of the outstanding quality of John Charles Copperware and who have offered it as premiums have been Hills Bros. coffee

TIKI TORCH, new item manufactured by the John Charles Copperware co., has been in tremendous demand since the minute it was introduced. Used for outside lighting, it burns kerosene and gives an exotic, dancing flame. Also repels insects.
